

Investigation of the effect of moderate heat treatment on wood hygroscopicity by NMR relaxometry

Leïla Rostom – 1st year PhD

Supervisors : *Sabine Caré and Denis Coutier-Murias*
Laboratory Navier

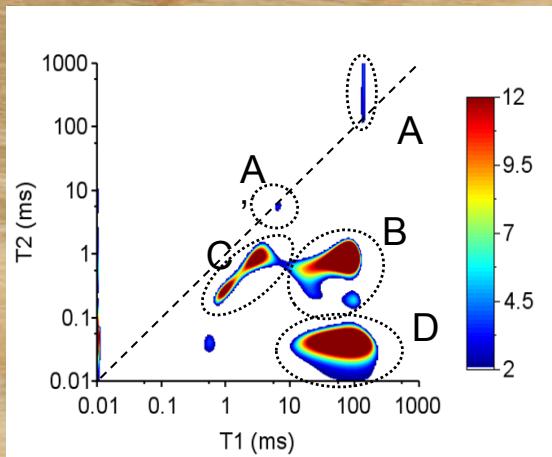

7èmes journées du GDR Sciences du Bois, 2018

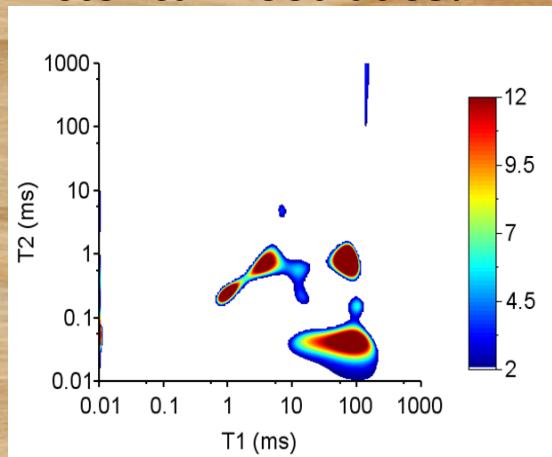

Bruker Minispec MQ20
Magnetic field : 0,5 T

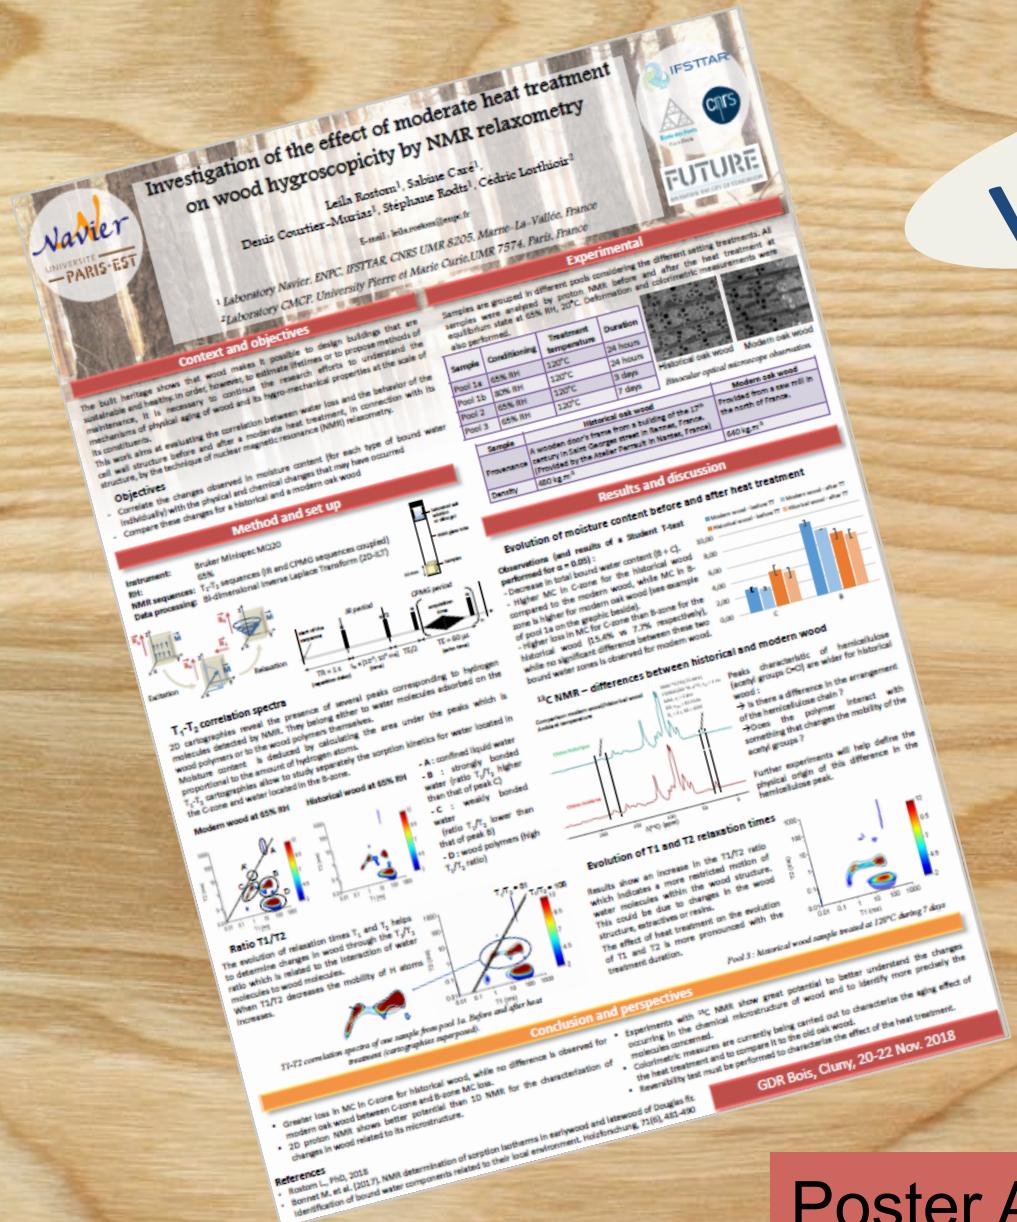

Modern wood at 65% RH

Historical wood at 65% RH
